

CHINA REFORMED THEOLOGICAL SEMINARY 改革宗神學院

SEMESTER: SPRING 2020

COURSE: HEBREWS 希伯來書

INSTRUCTOR: REV. ANDREW McCAFFERTY 麥安迪牧師

一. Course description 課程介紹

The book of Hebrews gives us a Jewish, non-Pauline perspective on the Gospel. It exalts our Lord as the Son of God and our great high priest. It repeatedly warns us to pay closer attention to him. The book helps us to understand the relation of the New Testament to the Old Testament. The author covers the OT sacrifices and the NT sacrifice, the OT covenant and the NT Covenant, the OT tabernacle and the NT tabernacle, the OT worship and NT worship. His central terms are "better", "once for all", and "without".

This course will be exegetical. We will discuss the book verse by verse. The purpose is to understand the message of the book in its setting as well as how it is relevant to the Church today. We also want to learn to exegete, comparing different views of the book and judging which views are more reasonable.
